RATS INVADE THE

Prove Nov. 21 - Rats comprised the city commission last evening. It was brought up by W. H. Dusenberry, who urged that some steps be taken to prevent the spread of the nuisance, before it becomes more serious. He referred to the actions taken by San Francisco and other coast cities, made necessary by the increase of rats and the destruction wrought by them, and the danger of the bubonic plague and other diseases being carried by the rodents.

A letter was read from Judge W N. Dusenberry, now in San Francisco, written in answer to a request for some first-hand information of the methods pursued there to restrict and exterminate the rats. Mr. Dusenber ry suggested that some public movement be made before the rats become numerous. The matter was taken under advisement and some action will probably be taken.

A letter was read from Joseph F. Merrill, director of the State School of Mines, offering in behalf of the University of Utah, the assistance of members of the engineering faculty, as consulting specialists in municipal The recorder was instructed to write Director Merrill expressing appreciation of the proffer.

State Will Insist on the Protection of the Settlers.

Boise, Idaho, Nov. 20 .- The settlers of the Big Lost River irrigation project and those who left there, but still have their contracts with the Big Lost River Irrigation company, now defunct, are to be given the first consideration and precaution will be taken to see that their rights and their con-tracts are protected by the state through the land board, when negotiations are entered into to rectain the following the first state of the tions are entered into to reclaim the Peterson when interviewed as to what way company as a personal invest steps the state purposes to take, now handed down a decision in the foreclosure and lien suit brought by Corey Bros. Construction company, in which this company won, securing a judg-ment for approximately \$650,000.

The state has been led to believe that upon the handing down of the circuit court's opinion steps would immediately be taken, in the event of an affirming opinion, to go ahead with plans to complete the works on the Big Lost River project so that water can be delivered to the land included within its borders for irrigation pur-That the state land board is looking forward toward immediate activity along this line is evident, and not only expects it, but is anxious to further delay. The completion of the project in the earliest possible time looked upon now as the paramount

"The state land board purposes to see that the settlers who are now on the project or who were forced to leave it are taken care of and protect ed in every way," said Attorney Genmore than 1000 clerks and stenogra- eral Peterson today. "We intend to phers have already been discharged, see that their contracts with the old but this will be small in comparison company are also protected so that with those who will be forced to seek there will be every precaution taken other vehicle was met, and in atto safeguard their interests.

insistent attitude with relation to the completion of the Big Lost River project is evident when the subject was called to their attention today. That they expect and believe the project will be completed and that the settlers who invested in its lands will be protected in every possible way by them was also evident. The board members intend to prevent any unnecessary delay in going ahead with the reclamation work and the land board is in a position to be insistent

Development of the interurban railway systems of Utah is reviewed in a recent issue of the Railway and Marine News, which is published in Seattle, and of which Kenneth C. Kerr, formerly railroad reporter for The Tribune, is editor. The article is entitled "Intermountain Electric Systems Show Great Progress," and discusses the history of the different lines that go to make up the electric interurban system of Utah.

ment. The progress of the street the circuit court of appeals has railway system from a small one to one branching in all directions to the surrounding country is told briefly, as is also that of the Emigration canyon railroad, the Bamberger electric line and others, with those now In course of construction

In a summary of the situation here Mr. Kerr in his article describes the 120-mile electric system which will be completed this winter and which will reach from Brigham City Payson by way of Ogden, Salt Lake City and Provo.

HAS A NARROW ESCAPE

WHEN COACH CAPSIZES Salt Lake, Nov. 21 .- A narrow es cape from death while riding in a see the negotiations opened without stage coach which overturned, was the experience of Julian Riley, United States deputy marshal, who reis, in brief, the slogan of the state turned to Salt Lake yesterday after and the state land board. This is a business trip to Kane, Garfield and Sevier counties. Several bones in Mr. Riley's hand were broken and he received bruises on the face. stated yesterday that he escaped luckily, however, from an accident that might have been attended by serious if not fatal injuries.

Mr Riley was riding in a stage the southern part of the state at 4:30 o'clock Sunday morning. Antempting to pass, the stage in which Mr. Riley was a passenger overturned and went over a precipice. Others the stage were Miss Grace Riddle of Coyote, and the driver, whose name was Burton. Both were slight

SPRING PRACTICE TO DECIDE TROPHY

Washington, Nov. 21.—Because the presence of the battleships in Mexican waters has interferred with the completion of the fall target practice the award of the general trophy will depend upon the outcome of the spring competitions, it was announce ed at the navy department today From the incomplete scores so far made it appear that the new dreadnaught, Wyoming, leads the list with a combined score of 41.109 per cent with the sister ship, Arkansas, a close second at 40.937.

It was said the North Dakota prob-

ably would have led all the ships but for the fact that she had been obliged to go to the navy yard for repairs at an inopportune moment. In the engineering competitions which now are regarded as equal in importance to gun practice the Idaho again heads the list with a percentage of 51.188, leading the Kansas whose score was 50.614 per cent. In the destroyer class the fi three ships in the Atlantic fleet in the matter of high power were the

order named.
